Dear Business Partner,

We are very pleased to announce that we will launch our newest supplier collaboration platform, **MCG Sourcing**, in a key partnership with Mercado Eletrónico.

MCG Sourcing is already in beta tests and will allow us to centralize and improve all supplier information management, as well as the communication process, disclosure of business opportunities and subsequent business awards.

With your collaboration and participation, you will have exclusive advantages in the access do new business opportunities, including:

- Access to your own “Supplier Profile”, where you can insert and update all your data, share commercial presentations, catalogs, etc.
 - Here you will also be able to select the different categories for which you want to receive our enquiries
- Centralized access to all RFX processes that you are invited in (Request for Information/Quotation/Proposal), which will allow:
 - Faster RFX processes and, thus, faster awards
 - Faster feedback on your quotes
 - Traceability of all RFX processes

The first steps for this implementation will be crucial for the success of our collaboration and will be communicated in the first couple of weeks of September. A Quick-Guide with instructions will also follows.

MCG Sourcing will be essential and mandatory in all MCG’s negotiation and purchasing processes, as well in its relationship management with its suppliers, aiming for greater transparency and efficiency.

We appreciate your cooperation and participation to create further business opportunities and to improve our communication.
